IDFA Member Exhibitor Directory

International Dairy Show
September 13-15, 2010 | Dallas, TX

**APV, An SPX Brand
Booth: 707**

APV operates worldwide as a global supplier of process engineering and automation. From the supply of engineered components to complete process engineering and design, we specialize in helping our customers improve their plants' performance and profitability, which is maintained throughout the lifetime of support services, carefully tailored to our customers' needs.

**Advanced Process
Technologies-APT Inc.
Booth: 539**

APT Inc. serves the Dairy & Food Industry with plant concept & design, process, electrical and mechanical engineering, equipment manufacturing and complete installation. APT manufactures the Advanced Cheese Vat (ACV), processors, CIP systems, balance tanks, doors/ drains, etc.

**Alchemy Systems
Booth: 748**

Alchemy is dedicated to providing technology and multimedia tools that foster the ongoing professional development of the global workforce. Our SISTEM training platform provides the tools needed to effectively deliver, document and manage employee training. For more information, please go to www.alchemysystems.com.

**Alex C. Fergusson (AFCO)
Booth: 1917**

AFCO – a provider to the dairy industry since 1855. We provide sanitation detergents, CIP equipment and optimizing, training and sustainable solutions based on an honest, open ethical relationship. Come see our NEW CIP Training Demo, and NEW Smart Line conveyor solutions.

**Anhydro, An SPX Brand
Booth 707**

Atlantium Technologies Ltd. Booth: 133
Atlantium Technologies introduces the first non-thermal pasteurization equivalent /disinfection water under the PMO 2009 using its patented Hydro Optic Disinfection UV reactors. The Hydro Optic UV Disinfection reactor uses less than 20 percent of the cost of operating a thermal pasteurizer while providing on demand pasteurization equivalent water.

**Bran + Luebbe, An SPX Brand
Booth 707**

Bran+Luebbe is a worldwide leader in metering, analyzing and processing liquids with expertise for more than 70 years. The name Bran+Luebbe stands for high quality and precision, as one of the world's most reputable manufacturers of metering and process pumps, process systems as well as analyzing equipment. We have the highest quality standards, pioneering innovations and comprehensive process and applications know-how in the industry.

**Cargill Texturizing Solutions
Booth: 1323**

**Chr. Hansen, Inc.
Booth: 931**

Chr. Hansen's natural ingredient solutions have always been based on solid research, development and application competencies. We use our knowledge to create innovative, healthy and safe products in close cooperation with customers.

**Dairy.com
Booth: 2340**

Dairy.com helps the dairy industry manage, trade, and move bulk dairy commodities through Internet-based business solutions. Recognized as the industry's only Software as a Service (SaaS) provider, Dairy.com delivers bulk commodity trading, raw milk management, and transportation solutions for cooperatives, processors, manufacturers and haulers.

**Delkor Systems, Inc.
Booth: 907**

Innovation leader for end-of-line packaging systems for the dairy industry. We provide rapid, dependable, and efficient solutions for cartoning, case/tray packing, flat pad shippers (Spot-Pak® System), and retail ready packaging. Delkor machines are specifically designed to meet the needs of today's dairy plant environment, and we customize our equipment according to each customer's food safety needs. Delkor supports an active export program to Mexico, Central and South America.

**EPS Corp.
Booth: 1632**

EPS Corp delivers integrated energy solutions that enable Fortune 1000 manufacturing companies to reduce energy operating costs and carbon emissions by up to 25% on a continual basis, shift to alternative and renewable energy options and achieve their sustainability goals. To learn more about our proven 3 step process, visit www.epsway.com.

**Ecolab Inc. Food & Beverage Division
Booth: 1107**

As the leading global provider of sanitation products, systems and services to the dairy processing industry, Ecolab implements innovative and practical solutions to help customers enhance food safety, operational efficiency and sustainability with a holistic approach.

**Ellison Bakery, Inc.
Booth: 939**

A supplier of baked goods to the frozen dessert & confection industries. Offering cookies, candy-coated topped cookies, inclusion pieces, and baked crunch pieces used to produce exciting new ice cream novelties, and confection products. Call us about your next project and see how our custom developed baked goods can add some crunch to your product.

**Gerstenberg Schröder, An SPX Brand
Booth 707**

Gerstenberg Schröder is internationally recognized as a leading manufacturer of food processing equipment. We specialize in scraped surface heat exchanger (SSHE) technology, continuous butter and emulsification equipment. We supply plants ranging from individual machines to complete process lines. Our machines are sold and serviced across every continent and in more than 120 countries.

IDEXX Laboratories, Inc. Booth: 746

Worldwide—from processing plants to government regulatory agencies, co-ops to dairy farms—customers rely on IDEXX technologies for detecting antibiotic contaminants and ensuring milk safety and quality. Our innovative technologies and unmatched service and support can help make drug-residue testing a simple part of your quality routine.

**Johnson Refrigerated Truck Bodies
Booth: 420**

Johnson Refrigerated Truck Bodies is the innovator of insulated fiberglass delivery equipment and all-electric clean and green refrigeration systems. Johnson has designed and manufactured both custom and standard insulated truck bodies and trailers - ranging from 8 to 36-feet - for the refrigerated transport industry since 1932.

**Mettler-Toledo Safeline
Booth: 1411**

Mettler-Toledo Safeline delivers quality assurance and contaminant detection for brand protection of dairy products. Our metal detectors and x-ray inspection systems are supported by 24/7 customer phone support and a nationwide service network.

**Miron Construction Co., Inc.
Booth: 1531**

Providing professional construction services for the past 92 years. Miron provides general construction, construction management, and design-build services to the following markets: food processing, commercial/retail, healthcare, educational, industrial/manufacturing, religious, government/ community, and environmental.

**Mobil Industrial Lubricants
Booth: 2328**

**Park City Group
Booth: 2125**

**Pecan Deluxe Candy Company
Booth: 923**

Pecan Deluxe Candy is the driving force in trends within the industry. With creativity, top-notch R&D department and manufacturing facilities in the U.S. & U.K., we can help your company reach new culinary levels by providing the best products and customer service possible. Visit us at booth #923 or www.pecandeluxe.com.

Quickway Services

Booth: 849

Quickway is a 100% Employee Owned Company that specializes in the delivery of milk and dairy products. Our business is predominately multi-stop direct store delivery of perishable products. Our customer base includes the nation's largest grocery retailers, food wholesalers, and food manufacturers.

Randolph Associates, Inc.

Booth: 1407

Randolph Associates, Inc. specializes in providing solutions to the Dairy Operations and Food Processing Industry. Our auditing, training, consulting, laboratory, and plant engineering services have a solid a reputation for improving the operations of some of the industry's leading companies. RAI offers 3rd party audits, training, and consulting.

SPX Corporation

SPX Flow Technology

See also:

- APV, An SPX Brand
- Anhydro, An SPX Brand
- Bran + Luebbe, An SPX Brand
- Gerstenberg Schröder, An SPX Brand
- WCB-Flow Products, An SPX Brand
- Waukesha Cherry Burrell, An SPX Brand

Booth: 707

SPX's Flow Technology segment designs, manufactures and markets engineered solutions and products used to process, blend, meter and transport fluids. Recognized for its leading brands, the Flow Technology segment has global operations which serve the Food & Beverage markets.

Siemens Industry, Inc.

Booth: 1427

Siemens provides solutions for dairy processors that help improve efficiency, ensure quality, reduce costs, and optimize resource use. Our integrated automation and IT solutions ensure a seamless flow of information across the dairy value chain. Siemens dairy specific expertise and technology enable dairy processors to answer difficult challenges.

Silliker, Inc.

Booth: 848

The Silliker international network of accredited and certified laboratories employ cutting-edge technologies to provide dairy producers and processors with trusted analytical results. Services include: fluorometric alkaline phosphatase, Beta-lactam antibiotic screening, homogenization efficiency checks, residual microbial testing, and microscopic evaluation of fluid dairy product. Log on to www.silliker.com to learn how we can assist you.

Stellar

Booth: 414

Stellar is a fully integrated firm focused on design, engineering, construction and mechanical services worldwide. Stellar is focused on food safety in design and construction of food production and distribution facilities. Specialized expertise in industrial refrigeration and building envelope, as well as after-market parts & services support.

TIC Gums, Inc.

Booth: 738

Dairy solutions including emulsifiers, stabilizers, texturizers, and thickeners. We offer custom solutions to meet your needs.

Tate & Lyle Custom Ingredients

Booth: 1501

Tate & Lyle is a world-leading renewable food ingredients company, serving a global market. We turn agricultural products, corn and cane sugar, into valuable ingredients for our customers. These ingredients add taste, texture, nutrition and increased functionality to products that millions of people around the world use or consume every day.

Tetra Pak Inc.

Booth: 1306

Tetra Pak Processing provides solutions to enable our customers in the dairy, beverage, ice-cream and prepared food industries to achieve cost-effective and continuous processing of quality products. Our top-quality processing systems, project management and engineering services make Tetra Pak the preferred choice among processors.

WCB-Flow Products, An SPX Brand

Booth: 707

From its conception, WCB-Flow Products, has maintained a strict adherence to the highest manufacturing standards in the marketplace. Implementation of lean manufacturing techniques, allows for quick deliveries of standard and specialty product orders. A dedicated staff works extended hours to ensure orders are accurately placed and expedited. In addition, our website allows our customers the capability of accessing material test results to trace the origins of the materials used in our products.

Waukesha Cherry-Burrell, An SPX Brand

Booth: 707

For more than a century Waukesha Cherry-Burrell has been a leading supplier of fluid handling and process equipment including pumps, valves, fittings, and heat exchangers. WCB and its network of stocking distributors are dedicated to raising productivity, product quality and profitability for their equipment and systems customers. From this dedication has come advancements in equipment development and applications; advancements that have changed the way process designers solve problems.

BUSINESS PARTNERS

3M Food Safety

Booth: 1449

3M is the leading global manufacturer of innovative solutions that help the food industry optimize the quality and safety of their products to enable consumer protection. We provide solutions that help mitigate risk, improve operational efficiencies and impact the bottom line. Visit us at: www.3M.com/foodsafety

A&B Process Systems

Booth: 1431

A&B Process Systems is a proven leader in the design, fabrication, automation, testing and

installation of high quality stainless steel process skids/super skids, tanks, auxiliary equipment and piping systems. We have an in-house staff of design and automation engineers, welders, fitters, QA/QC professionals and project management personnel.

APTwater, Inc.

Booth: 426

APTwater develops advanced water treatment systems that enable water reuse. Our technologies are based on renewable resources and minimize waste production for businesses with a mission-critical need to enhance

environmental sustainability. With over 175 world-wide installations, contact us to learn how we deliver Clean Water, No Waste.

A.R. Arena Products Inc.

Booth: 1341

A. R. Arena Products manufactures the 330 gallon, 1250 liter, all plastic, collapsible, reusable Arena 330 Shipper™. It is a "Bag-in-Box" system used for shipment and storage of non-hazardous liquids. A. R. Arena Products also offers the patented Air Evac® hands-free discharge system. Visit us at www.arenaproducts.com.

ATEX Explosion Protection, L.P.

Booth: 1145

ATEX Explosion Protection is a manufacturer of Explosion Prevention and Protection Systems for the International Dairy Industry. Our products developed for spray dryer protection include CO Early Fire Explosion Prevention Systems and Hot Water Explosion Suppression Systems meet the required industry health, safety and operational requirements.

ATMIC - FF Fischer Planning

Booth: 240

ATMIC-FF delivers the Ultra-clean ESL and Long Shelf Life processing machinery, air-purifiers, filters and sterilizers, filler and washers; provides estimation, planning and integration. We serve the Food, Beverages, Sugar, Pharmaceutical, Chemical industries and municipal water suppliers. Our products are optimized to maximize customers' profit.

ATS Engineering Inc.

Booth: 1329

ATS Engineering Inc. designs and manufactures high-quality filling machines that suit a wide range of applications. Our durable rotary and straight-line machines can package a variety of liquid and viscous products, including juices, sauces, salads, dips, sour cream, cottage cheese, yogurt, ricotta, margarine, ice cream, peanuts, candies, etc.

Advanced Instruments, Inc.

Booth: 439

Advanced Instruments, its brands Spiral Biotech, D & F Control Systems, and subsidiary Delta Instruments, design and implement automated systems to monitor raw and finished product quality and pasteurization, with lowest cost of ownership and highest reliability. Stop by Booth 439, to see the latest in quality analysis for the dairy industry.

Airlite Plastics Co.

Booth: 529

Airlite Plastics Co. is an industry leader in injection molding and decorating of plastic packaging. Airlite is well-known as a supplier of containers and lids for packaging food products. Airlite Plastics offers complete package design, graphic design, model and prototype building, tool construction and full production services.

aMaMa®, Ltd.

Booth: 1722

aMaMa® Ltd. – A Virginia Corporation since 1998. Company objective is to introduce specialty aMaMa® Flavor Bases of mildly sweet and naturally colorful whole vegetables and spices to facilitate transfer of the intrinsic color, fiber, nutrients and subtle aromas to enhance and add value to existing food/dairy products.

Ampco Pumps Company

Booth: 241

Ampco Pumps continues to provide our customers with excellent quality, service and new products. Our newest addition is a line of positive displacement sanitary pumps that are direct replacements and 100% interchangeable with other leading brands. Please stop and see us in Booth #241 to view our complete line of sanitary centrifugal and pd pumps.

Anderson Instrument Co., Inc.

Booth: 835

Anderson Instrument Company is a leading producer of Sanitary Process Instrumentation for the Life Sciences, Fluid Food, Beverage, and Cosmetic Industries. As an innovative manufacturer, we provide our customers with engineered products that solve application-specific problems.

Atlas Minerals & Chemicals, Inc.

Booth: 940

Flooring experts - that's what ATLAS is to the dairy industry. Sanitary, safe and durable flooring is our specialty. With product diversity ranging from REZKLAD coatings to innovative ATLAS VTF and FURNANE brick and tile systems, ATLAS offers the optimal system for any flooring requirement. Ask ATLAS, we have a world of answers.

Automation Ideas, Inc.

Booth: 1630

We provide high quality bottle handling systems in the dairy and blowmolding industry. Our thinking is shaped by more than 50 years' combined experience in the bottling/material handling industry.

Bentley Instruments, Inc.

Booth: 949

Bentley Instruments Inc specializes in the development, manufacturing, and worldwide distribution of analytical instruments for the dairy industry. Current products include Bentley Infrared Milk Analyzers, Somacount Somatic Cell Counters, BactoCount IBC Bacteria Counters and the ChemSpec Milk Urea Analyzer.

Berry Plastics Corporation

Booth: 507

Berry Plastics is a leading manufacturer and marketer of plastic packaging products. Berry Plastics is a major producer of a wide range of products, including open top and closed top packaging, polyethylene and PVC based plastic films, industrial tapes, medical specialties, packaging, heat-shrinkable coatings, specialty laminates, and FIBCs.

Blackhawk Molding Co., Inc.

Booth: 215

Blackhawk Molding Co., Inc. founded in 1949 is headquartered outside Chicago in Addison, Illinois and has production facilities located in Illinois, Arkansas & Nevada. As a leader in the industry, our standard of excellence has led to

many innovations, such as the patented Super-Quad STS Capper System for small-package caps.

Breddo Likwifier, Division of Caravan

Ingredients Co.

Booth: 339

The BREDDO Likwifier is designed to dissolve solids or semisolids where time, temperature and complete hydration are important. Likwifier's are being used in the food industry to manufacture ice cream mixes, candies, canned condiments, reconstituted products, sauces, salad dressing, fillings and many other similar items.

Buckhorn, Inc.

Booth: 1040

Buckhorn, a leading provider of reusable plastic packaging solutions, delivers superior innovation, selection and service. Buckhorn's product line includes Pallets, Bulk Containers, Hand-held Containers, Intermediate Bulk Containers, Agricultural Containers, Food Handling Containers, Bakery Trays, Custom Work Centers, and Dunnage.

Burd & Fletcher Company

Booth: 1232

Burd & Fletcher is the primary resource for fine quality printed folding cartons and formed containers for the ice cream, frozen food, and frozen dessert industries. Reliability and the ability and willingness to provide service, tailored solutions, and packaging that exceed our customer's expectations are the hallmarks of our company.

CEM Corporation

Booth: 1220

CEM is a leading global provider of advanced laboratory systems for fast, accurate fat, moisture and protein testing. Our award-winning systems use AOAC-approved methods and provide reliable results without any hazardous chemicals. Improve your quality and process control quickly and easily!

Carlson Engineering, Inc.

Booth: 1541

Since 1988, you'll find Carlson leading automation inside the country's largest facilities. We are experts in your process, from batching and pasteurizing to CIP. Use our experience to design the most reliable, best cost automation solution for your plant.

Celsis International

Booth: 432

Quickly confirm the quality of your products and get them to market faster! Celsis Rapid Detection cuts days from your production cycle by providing microbial limits testing results in just 24 hours, not 4-15 days like traditional methods. And now we're unveiling new innovations that make our system even better for dairy! Learn more at booth 432!

Centec LLC

Booth: 1833

Charm Sciences Inc.

Booth: 1320

Backed by more than 30 years of excellence in food safety diagnostics, more dairy producers and processors trust Charm antibiotic, pasteurization verification, end product microbial assessment, allergen control and ATP hygiene tests than any other. That's because Charm tests are easy to use, economical and reliable.

Cheese Market News

Booth: 2133

CHEESE MARKET NEWS is a weekly trade newspaper serving the cheese business. We offer unequaled readership among the industry's top decision makers and comprehensive industry coverage on market trends, legislation, new products, plant expansions, mergers and acquisitions, personnel changes, events, weekly columns by industry experts, monthly Retail WATCH section, "Key Players", and year-end market directory.

Cheese Reporter Publishing Co., Inc.

Booth: 2047

Cheese Reporter is a weekly newspaper serving the largest international readership of cheese manufacturers and other milk processing companies. With more experience on staff than any other publication, Cheese Reporter provides in-depth coverage and unique angles on the industry. Cheese Reporter is available in print and electronically (PDF format).

Cipriani Harrison Valves Corp.

Booth: 208

Complete Automation Inc.

Booth: 1638

Complete Automation specializes in the design, fabrication, and installation of process fluid systems. Our customers in the dairy, food & beverage, pharmaceutical, and industrial sectors benefit from CA's extensive experience with turnkey solutions to process applications. Please ask about our lineup of product recovery (pigging) systems equipment.

Cloud Company - Sellers Cleaning Systems

Booth: 2045

Cloud offers a full line of washdown stations and rotary impingement tank cleaning machines.

Crystal Chem, Inc.

Booth: 1650

Crystal Chem is a supplier of cutting-edge food safety products. Our innovative food allergen ELISA kits allow manufacturers to reliably detect allergens in raw & processed food. These kits complement our lateral flow kits which allow for fast, easy on site testing. Crystal Chem also supplies 2 hour Vitamin A & D assays for dairy and food products.

Curwood, Inc.

Booth: 1609

Get the industry's most complete portfolio of packaging materials and fresh new features. Our market-leading lineup helps you create more opportunities to grow your brand. Featured are versatile Liquiflex film equipment for cheese sauces and other liquids; Curwood Advantage bulk shred films; and IntegraPeel films for peelable on-pack promotions.

Custom Fabricating & Repair Inc.

Booth: 1655

CFR specializes in system integration for the sanitary processing industries. Capabilities include process design, equipment manufacturing, system controls and nationwide installation. CFR is the parent company of Advanced Process Solutions, Complete Filtration Resources, and our new affiliate Cheese Systems Inc.

Custom Metal Design, Inc.

Booth: 107

DYCO, Inc.

Booth: 843

Dairy Foods Magazine

Booth: 2149

As a monthly publication, Dairy Foods Magazine serves the entire \$110B dairy processing market with the informational needs of companies that process, distribute and market Fluid Milk, Ice Cream, Novelties, Yogurt, Cheese & Cultured Products, Dairy Beverages, Juices, Teas, Soy plus Butter & Dips. Visit www.dairyfoods.com for more information.

Dairy House

Booth: 1231

Dairy House is a partner to the dairy, food, and beverage industries in the development, application, and creation of flavor and ingredient systems. Part of The International Companies, a strategic purchaser, processor, packager, and distributor of food ingredients, Dairy House is focused solely on food science from idea to distribution.

Data Specialists, Inc.

Booth: 2229

Data Specialists Inc. Dairy & Food Tracker™ Software/Services: Lab, Producer Payroll, Equity, Liq. Procurement & Liq. Sales/Dairy ERP modules. Order/Distribution, EDI, Inventory & Production, Costing & financials. DairyTracker barcode system. Consulting & project management. Mass balance plant audits. Contact 262.723.5726 www.dataspecialists.com

DeLaval Cleaning Solutions, A Division of DeLaval Inc.

Booth: 307

DeLaval Cleaning Solutions provides a full line of detergents and sanitizers to the food, dairy, and beverage industries with customized sanitation programs and services.

Dole Refrigerating Company

Booth: 1435

Econo-Cel/Cold-Wel: Eutectic Plate Blower System; Cold well design to prevent product freezing during plug in time; Three powerful 1/3HP fans provide circulation throughout the truck body; Dole Automatic Hot Gas Defrost System; 3 Eutectic cold plates over 110,000 BTU's of holdover refrigeration; Save over \$6000.00 per truck per year.

Donaldson Company, Inc.

Booth: 2238

Donaldson Co., Inc. is a leading worldwide provider of compressed air purification equipment and process filtration systems that improve people's lives, enhance equipment performance, and protect the environment. Our innovative designs focus on energy-efficient operation and reliable performance to minimize operating expenses and reduce downtime.

Double "H" Plastics, Inc.

Booth: 2017

As the industry leader in composite lids, Double H offers Ice Cream Packaging that combines paper and plastic to fit virtually any shape and size. Whether you're looking to upgrade existing packaging or launching a new size, Double H brings the function and fit of plastic together with superior graphics to achieve outstanding consumer appeal.

DuPont Liquid Packaging Systems

Booth: 828

We welcome the opportunity to share with you all the latest Filling Systems DuPont/Liqui-Box has to offer. Come to Booth #828 and see why we continue to be one of the industry leaders for well over 40 years. DuPont/Liqui-Box...you're total one stop shop for all of your flexible packaging needs in the Dairy Industry. Stop today to see the latest!

Edgar A. Weber & Co. (D.B.A. Weber Flavors)

Booth: 2222

Weber Flavors provides flavoring solutions. Our trademarked line of Simply Natural Flavors, Petran Chocolate Powders (for milk), HoMaid Waves & Specialty Bases meets your flavoring needs for frozen desserts, flavored milks and cultured products. Our manufacturing process assures consistent quality and rich flavor for our Pure Vanilla Extracts.

Enviro Doors - An ASI Technologies Company

Booth: 1030

Manufactures a complete line of insulated fiberglass, galvanized and stainless steel doors for the cold storage industry. Enviro can provide a door for virtually every cold storage need – horizontal sliding, vertical rise, sectional, swinging, UL rated fire and fabric roll-up. Visit us at www.asidoors.com.

Evergreen Packaging

Booth: 1417

Introducing the NEW servo driven EQ-70 gable top packaging machine. The EQ-70 quart/liter machine has infinite fill, machine & carton treatment options, easy access, and is simple to operate & maintain. Evergreen will share its focus on sustainability efforts, paper & packaging solutions, SPOUT-PAK closures, Run Time parts & service program, and Milk Rocks! marketing.

Excel Engineering Inc.

Booth: 1810

Excel delivers better plans for your process & facility construction/expansion. Process engineers & architects collaborate w/ engineers from every discipline. Integration combines process & architectural services w/ engineering services. Experience includes: Dairy, Red Meat, Bakery, Vegetable, General Food, Cooler/Freezer Storage & Distr Centers.

Extrutech Plastics, Incorporated

Booth: 2123

Federal Mfg. Co.

Booth: 721

Providing sanitary filling and capping solutions to the Dairy industry for more than 65 years. Federal Mfg. Co. offers complete filling equipment systems for low-acid applications.

Filler Specialties, Inc.

Booth: 521

Manufacturer of sanitary stainless steel filling & capping systems for flowable liquids into plastic, glass or metal containers from 60ml to 10 litre. Speeds from 10 bpm to over 650 bpm. Since 1973, Filler Specialties has been a leader in the industry, providing fast, accurate, efficient, innovative equipment world-wide.

Firmenich, Inc.

Booth: 739

Let's face it, anyone can provide flavors, but who can present a solution for all your flavor needs? Firmenich can. For decades, our experts have delighted customers by tracking the hottest trends and converting them into top selling flavors. Stop by our booth and taste the difference.

FOSS North America Inc.

Booth 1023

Secure your inline and lab analysis needs with FOSS instruments. FOSS's dedicated analytical solutions for dairy products in all stages are unmatched for accuracy, speed, reliability and robustness. Stop by Booth 1023 to see the new ProFoss™, the updated MilkoScan FT2™ and the ever reliable FoodScan™. www.foss.us

GEA Process Engineering, Inc.

Booth: 821

GEA Process Engineering is a full-service engineering company offering systems and solutions for liquid and powder processing. The company is known for innovative processing systems for drying, agglomeration, evaporation,

liquid processing, aseptic plastic bottle filling, powder handling and packaging, cleaning (CIP) and fermentation.

GEA Tuchenhausen North America

Booth: 821

A global leader in the manufacturing of a wide range of sanitary flow components for the dairy, food & beverage industries – including a comprehensive range of valves; valve control technology; inline instrumentation; cleaning devices; vessel protection & cleaning systems; and the revolutionizing mixproof 24/7 PMO Valve & 24/7 PMO Tank Valve.

Gamajet Cleaning Systems, Inc.

Booth: 1921

Gamajet's complete line of automated tank cleaning machines use a patented rotary impingement cleaning process. Unlike sprayballs, the fluid-driven machines scour the entire tank in a repeatable & reliable 360° pattern, using less chemicals, water & time. Perfect for process vessels, spray-dryers, silos, ribbon blenders, trailers and more.

Haas Mondomix

Booth: 2233

Haas-Mondomix USA provides baking, continuous aeration and process equipment for the production of wafers, waffles, ice creamcones, rolled wafer sticks, and other specialty products.

Hammons Products Company

Booth: 1723

Hammons Products is an SQF 2000 and Kosher certified processor of Black Walnuts. We provide raw and caramelized black walnuts for use in ice creams at all levels. Since 1946, we have hand-harvested nuts from the wild, cracking and sourcing them direct to the ice cream industry. Visit our booth for samples of a new flavor of black walnut ice cream!

Harrison Electropolishing, LP

Booth: 1638

Harrison Electropolishing specializes in electropolishing, mechanical polishing, pickling, passivation, and oxygen cleaning services for corrosion resistant, high purity process equipment. These services can be provided at our Houston facility or at your jobsite, anywhere in the world.

Hawaii Intermodal Tank Transport, LLC

Booth: 1841

Hendon & Redmond Engineers, Architects & Construction Managers

Booth: 1422

Complete Food Plant Design Solutions: Facility Layout & Design, Engineering, Architectural, Lean Process Design and Construction Management Services Considering whether to expand, build new or renovate? Hendon & Redmond can help you make the right decisions. After all, we've been planning for the future of food plants for more than 50 years.

Herbein + Company, Inc.

Booth: 2139

With over 50 clients located throughout the United States, Herbein + Company, Inc. is firmly established as Dairy's top choice for accounting, tax, and consulting services. Our experience spans all dairy concerns, including fluid, ice cream, butter, cheese, powder, by-products, etc. We represent dairy processors and cooperatives.

Hercules Mfg. Co.

Booth: 1251

Hercules has been setting standards of excellence since 1902. With over 100 years experience as custom body and refrigeration specialists, cost effective green refrigeration systems keep Hercules on the leading edge of technology. Our combination of lower body weights with all electric refrigeration systems can greatly reduce your fuel consumption.

Huhtamaki, Inc.

Booth: 1115

Huhtamaki specializes in consumer packaging solutions in rigid paperboard, rigid plastic and molded fiber packaging. Our product range features round and non-round paperboard containers using Huhtamaki Systems. Our expertise in the frozen dessert market continues to grow with new package introductions in single serve and family size containers.

Hydrite Chemical Co.

Booth: 532

Hydrite Chemical Co. is a leading manufacturer of dairy sanitation chemicals, process aids, food ingredients, commodity chemicals and wastewater treatment chemistry in the U.S. Hydrite Chemical Co. specializes in membrane system optimization and reducing plant sanitation time to increase production hours. Rooted, reliable and respected since 1929.

IML Containers/ Lacroix Packaging Inc.

Booth: 247

We are manufacturer of wooden, cardboard and plastic containers with decoration by in-mold label. We develop custom shapes but have also some stock lines to offer to everybody. All our packaging have an European influence due to our European study and design office. If you want something different from your competitor, come and visit us!

IMS Group USA (Innovative Machinery Solutions)

Booth: 228

IPEC (International Plastics & Equipment Corp.)

Booth: 233

IPEC's portfolio includes a wide variety of 38mm dairy closures: ISO superior screw-on; ISS consumer-friendly snap-on, screw-off; ITT lightweight tail; ICD classic 5 lead screw; ISC snap-on, snap-off. All are used for gallon, half gallon or single serve HDPE and PET

applications. IPEC provides the industry's best technical service to account ratio.

Ivarson Inc.**Booth: 333**

Nearly fifty years ago, Ivarson set the standard related to the production and packaging of butter. Today we continue to lead the butter and cheese industry with the latest technology setting a new standard. Let our standard of excellence and proven past increase production, reduce downtime, meet sanitary requirements and improve your bottom line.

JB Hunt Transport**Booth: 2032**

J.B. Hunt Dedicated Contract Services®(DCS) specializes in the design, development, and execution of supply chain solutions. Capitalizing on advanced systems and technologies, DCS offers engineered transportation solutions that support virtually any transportation network.

Jogue Incorporated**Booth: 406****Kagetec LLC****Booth: 1140**

Kagetec provides chemical resistant, hygienic, industrial flooring systems consisting of slip-resistant ceramic tile and integrated stainless steel drains. We have more than 20 years of experience in the food and beverage industries, and pride ourselves on maintaining the highest-quality floors by performing the installations ourselves.

Klaser Tile Company, Inc.**Booth: 1344**

Klaser Tile Co., Inc. provides installation services of acid resistant floor and wall tiles. Also provides installation of dairy brick.

Masterleo, Inc.**Booth: 313****Mead & Hunt, Inc.****Booth: 950****Membrane Process & Controls Inc.****Booth: 944****Millerbernd Systems****Booth: 1347**

For over 75 years, Millerbernd Process Systems has remained committed to innovation and excellence as an industry leader in design, custom fabrication, and installation of processing equipment. As a single-source solution we promise quick turnaround and the highest quality craftsmanship, from single components to complete automated systems.

Modern Packaging, Inc.**Booth: 407**

Modern Packaging Inc. designs and manufactures packaging systems for the food, dairy, cosmetic and drug industries. All are 24

hour production machines with stainless steel construction and can be aseptic or positive clean air pressure. We build a variety of systems with custom features that best fit your requirements.

Murzan, Inc.**Booth: 1821**

Murzan, Inc. manufactures a complete range of CIP capable hygienic pumps that can run dry without damage. Murzan's markedly hygienic pumps are great for transferring viscous fluids, shear sensitive liquids and fragile particles at low maintenance costs. Brilliant in suction lift, you can unload and transfer your products with optimal hygiene.

Neogen Corporation**Booth: 935**

Neogen's tests developed for the dairy industry include BetaStar® and TetraStar® to detect beta-lactam and tetracycline dairy antibiotics; rapid milk and soy allergen tests; indicator organism tests; and the unequaled AccuPoint® ATP sanitation monitoring system.

NiMCO Corporation**Booth: 1120**

NiMCO Corp the leading manufacturer of gable-top packaging machinery offers a variety of efficient and economical machine models to fill an array of liquid dairy food products into paperboard cartons. Fill volumes include 120ml to 5L at speeds ranging from 4-125 CPM. Filler options include solid, moist and viscous products.

Noren Products**Booth: 229**

Noren Products manufactures air-to-air & air-to-water heat exchangers for cooling sealed electrical panels without letting contaminants inside (including wash down, & hazardous locations). Our units are easy to install, low maintenance, Freon free & cost a fraction of air-conditioning. Available in Nema 12, 4, 4x, SS, UL Listed, cUL, & CE.

Numeric Computer Systems, Inc.**Booth: 1321****ORBIS Corporation****Booth: 1827****Oregon Cherry Growers, Inc.****Booth: 1617**

Ice cream ingredient Cherries: Natural Red, Natural Bordeaux, Red Maraschino, Dark Sweet Frozen, Non-bleed Red, Royal Bing, Black Natural, Sugar-Free Red Maraschino, Sugar-Free Bordeaux. We feature high quality cherries, sulfite free, with ultra high pit standards that are Kosher approved from our SQF Level 2 certified production facilities.

Systems for denesting, filling, heat sealing and over capping preformed containers. Capable of speeds upto 600 cpm. The equipment is used for

filling dairy products including: yogurt, sour cream, cheese, ice cream & frozen novelties. Filling via volumetric pistons with volumes ranging from 2-oz. to 40-lbs. Ultra-Clean & Aseptic Fillers.

Osio International, Inc.**Booth: 1148**

Shrink labels (PETG, PVC, OPS, PLA), stand-up pouches, spouted pouches, retort pouches, bags, high barrier roll-stocks, forming films, and lidding films. Photographic quality rotogravure printing up to 10 colors, low gravure cylinder costs, very competitive material pricing, and vendor managed inventory programs. Largest importer of shrink labels.

Owl Software**Booth: 324**

TECHWIZARD™ software provides least cost formulations, formula costing, reverse engineering and nutrition labels. PRODUCTION WIZARD™ batches consistent products from variable raw ingredients. Restandardizing mix is quick and simple.

PDC International Corp.**Booth: 1139**

PDC International Corporation manufactures a full line of machinery for applying heat shrinkable tamper-evident bands and sleeve labels with speed range capabilities from 50 to 800 cpm. PDC also makes a wide range of shrink tunnels, including hot air and steam models. Since 1968, PDC has delivered rugged, easy-to-maintain machinery worldwide.

Pace Packaging Corporation**Booth: 729****Pacific Ozone Technology, Inc.****Booth: 1230****Pall Corporation****Booth: 1239**

Pall Corporation is the global leader in filtration, separations and purification. We design, develop and manufacture an unparalleled range of advanced filter media, separation systems and membrane processes.

Polypack, Inc.**Booth: 1439**

Polypack, Inc. manufactures quality shrink-wrapping and packaging machinery including total closure forming head and sleeve wrap shrink wrappers, and fully automatic tray form/load/seal machines. Models may be combined with integrated product handling and collation equipment including the company's patented ROKHTM robotic pick and place system.

Polytainers Inc.**Booth: 1131**

Polytainers is the leader in the design, production and printing of thin wall rigid plastic containers for the food and dairy industry.

Portola Packaging, Inc.

Booth: 631

Portola designs and manufactures tamper-evident plastic closures for the dairy, juice, water, and other non-carbonated beverage markets. Our tradition of innovation now includes Aseptic/ESL packaging in the fluid dairy market. With new corporate headquarters in Naperville, IL, Portola has been a global leader in package integrity for 30+ years.

POWER Engineers, Inc.

Booth: 340

POWER Engineers is a full-service multidiscipline engineering firm serving the dairy industry. We have over 100 engineers dedicated to the food service industry involved in building and infrastructure design, process design, process controls and systems integration, material handling, packaging systems design and project/construction management.

Preform Solutions, Inc.

Booth 1149

Preform Solutions is a custom PET preform molding company. We will take your bottle concept and bring it to production. Our company specializes in mid-range production of superior quality preforms for the food and beverage industry, among others. We are a single-source company that ensures quality beginning with concept and prototyping to production of your container. We are flexible and can respond to your needs in a fast and cost effective manner.

RELCO

Booth: 1032

RELCO, LLC provides dairy and food plants with customized food processing equipment, systems and automation. Applications are for drying, heat treatment, evaporation, separation, filtration, culturing, fermenting, blending and powder conveying.

Rehrig Pacific Company

Booth: 1122

Richmond Baking

Booth: 1235, 1334

Ross Computer Systems, Inc.

Booth: 2029

For over forty years, Ross Computer Systems has been the leading provider of Route Accounting & Direct Store Delivery (DSD) Host & Handheld software to the dairy industry. Ross offers industry expertise and a full suite of DSD specific applications, including a Windows based SQL Server Host system & multiple Windows Mobile handheld applications.

Rota Pack Inc.

Booth: 139

S & D Coffee

Booth: 1225

Saint-Gobain Performance Plastics

Booth: 1330

Saint-Gobain Performance Plastics introduces safe and high-performance critical connections solutions for dairy, food and beverage applications. These solutions are designed to help companies reduce total system costs, maintenance and repair expenses, resulting in minimized operations downtime. In addition, the solutions meet stringent food regulatory standards, ensuring product safety.

Sanchelima International, Inc.

Booth: 623

For more than 25 years, Sanchelima International Inc. has fulfilled the needs of an ample list of clients in the Dairy and Beverage industry; giving out solutions that range from individual equipments for specific processes, up to complete production plants. We commit to the design, start-up, and service of our processing solutions for your needs.

Sani-Matic Systems

Booth: 1545

Sani-Matic designs and builds Clean-In-Place (CIP) Systems, Clean-Out-of-Place (COP) Washers, Cabinet Washers, Tunnel Washers, Boosted Pressure Systems, and Components for a diverse range of industries including meat, poultry, dairy and beverage. We pride ourselves on being the premier partner companies choose when they want Cleaning Confidence.

Scan American Corporation

Booth: 1244

Scan American offers our customers excellent results, and has been for over 30 years. Revolutionary technology combined with extensive experience enables us to provide powerful solutions for all your processing needs. We specialize in complete processed cheese lines and are offering new equipment for continuous dry cook pasta filata applications.

Selig Sealing Products

Booth: 2128

The leading worldwide manufacturer of induction liners, including the number one consumer preferred induction liner, Lift 'n' Peel (TM). The best solution to stop leaks, extend shelf life, ensure consumer confidence. Available in custom prints and colors to enhance your brand and provide the very best consumer experience.

Separators, Inc.

Booth: 1826

Separators, Inc. is North America's leading centrifuge service provider specializing in the remanufacturing of Alfa Laval, Tetra Pak and Westfalia centrifuge equipment. Separators Inc. offers a full complement of startup, maintenance and repair services and stocks over 4,000 parts with 24/7 availability.
