Local-focus Initiatives

Along the full supply chain
Value of Engaging

* not actual situation; example supply chain only

Working Group Collaboration

Pre-competitive meetings

- address sustainability (buyers and suppliers)

Input from the FSA Programme, -

- identify the best way to implement (or equivalency) in specific supply chains

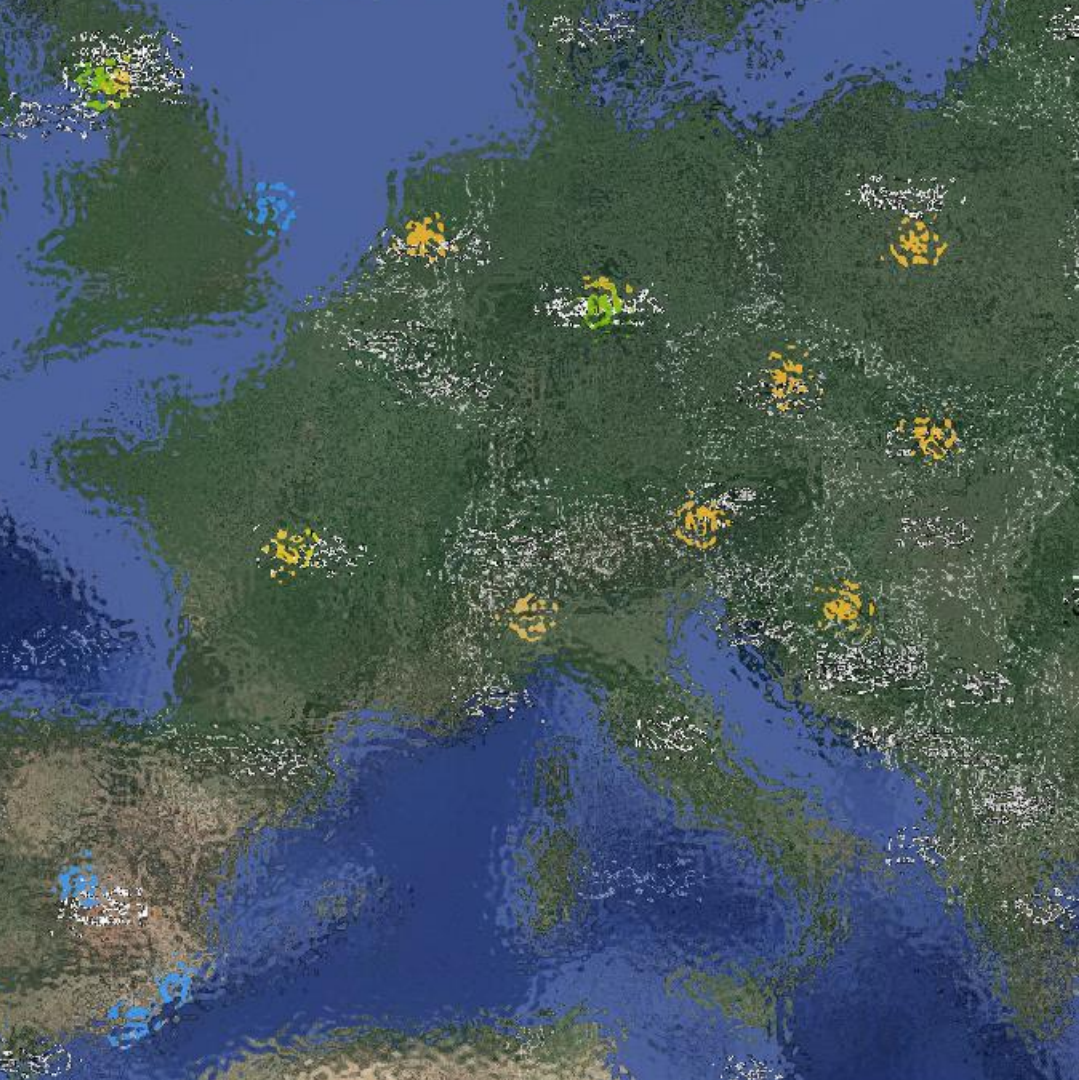

Tools

- pilot new tech & tools to increase engagement & efficiencies (i.e. Spotlight)

Network

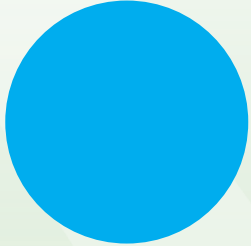

- identify and engage other stakeholders in your supply chain

FSA

HYBRID

BENCHMARK

VERIFICATION

What is the FSA Tool?

Questionnaire based on sustainable farming practices recognized in the food and drink industry, covering **environmental**, **economic** and **social** aspects

Environmental

- Agro-chemicals
- Air
- Biodiversity
- Crop Protection
- Planting
- Soil Management
- Waste Management
- Water Management

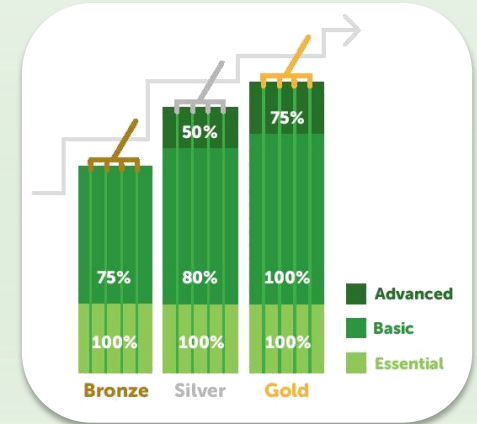

Economic

- Financial Stability
- Market Access
- Legal Compliance

Social

- Health and Safety
- Labor Conditions
- Local Community

reducing complexity; unifying language

FSA in practice

Facilitates...

1. Risk Assessments

2. Company Reference

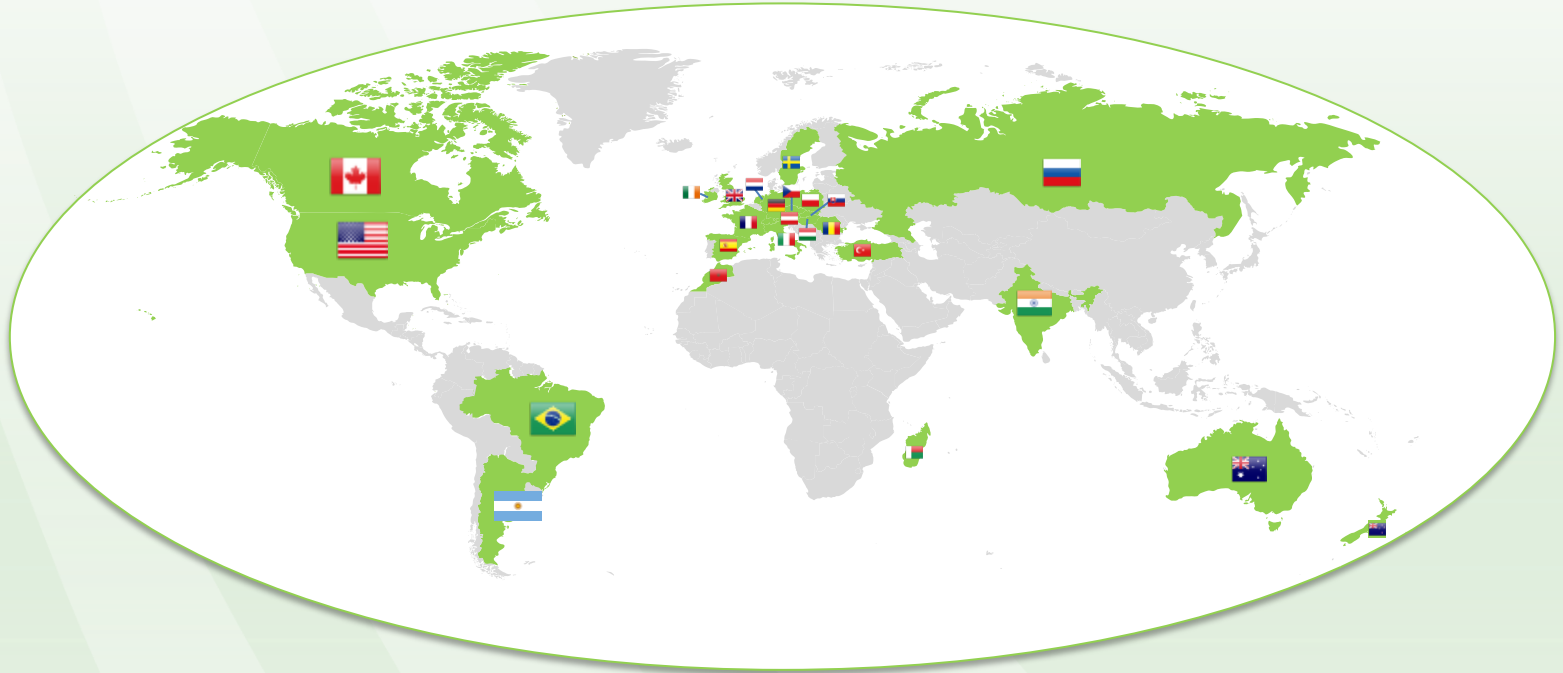

3. Benchmark Equivalency

4. On-Farm Assessment

used in over 25 countries in 18 languages

Farm Sustainability Assessment

English, French, Portuguese, Italian, German, Romanian, Russian, Spanish, Hungarian, Swedish, Dutch, Czech, Slovakian, Polish, Hebrew, Turkish, Chinese Mandarin, Greek
